

**CURRICULUM VITAE**  
**of**  
**Dr. GAVRIIL XANTHOPOULOS**

**Forester - Forest Fire Researcher**

Birth Date : April 27, 1957  
Birth Place : Thessaloniki, Greece  
Citizenship : Greek  
Work Status : Research Director  
Organization : Hellenic Agricultural Organization "Demeter"  
Institute of Mediterranean Forest Ecosystems  
Office address : Terma Alkmanos, 11528, Athens, Greece  
Office phone : ++30 210 77 93 142, Mobile: +30 6944536359  
E-mail : [gxnrtc@fria.gr](mailto:gxnrtc@fria.gr) & [gxnrtc@elgo.gr](mailto:gxnrtc@elgo.gr)

**UNIVERSITY STUDIES**

1. Diploma (B.Sc.) in Forestry 1976-1981  
Department of Forestry and Natural Environment  
Aristotelian University of Thessaloniki, Greece.
2. Masters of Science (M.Sc.) in Forestry (Specialization in Forest Fires) 1984-1986  
School of Forestry, University of Montana, Missoula, Montana, USA.
3. Doctor of Philosophy (Ph.D.) in Forestry (Specialization in Forest Fires) 1987-1990  
School of Forestry, University of Montana, Missoula, Montana, USA.

**PROFESSIONAL DEVELOPMENT STUDIES**

1. Seminar on "Information acquisition - verification in Marketing - National Market sales" 1983  
Greek Productivity Center (ELKEPA), Thessaloniki, Greece
2. S-330 (Sector boss (in forest firefighting)) 1985  
Interagency Wildfire Coordinating Group, USA
3. S-390 (Intermediate Fire Behavior) 1985  
Interagency Wildfire Coordinating Group, USA
4. Managing Fire Effects 1986  
Northern Training Center, Interagency Training Group
5. Wildland Fire Investigation Training 1989  
United States Department of Agriculture, Forest Service
6. Training as a consultant on matters of the European Union, with specialization in Agricultural problems (2 months) 1991  
Greek Productivity Center (ELKEPA), Thessaloniki, Greece
7. Remote Sensing Applied to Agricultural Statistics: Regional Inventories 1993  
Eurocourses - Joint Research Center, Commission of the European Union

8. Short Course on Wildland Fire Behavior Modelling. 1994  
Offered at the University of Coimbra, Portugal, following the 2<sup>nd</sup> International Conference on Forest Fire Research.
9. Training on the ArcView GIS software package. 1998  
Offered by Marathon Data Systems, Athens - ESRI representative in Greece

### **PROFESSIONAL CARRIER**

After completing his forestry degree in 1981, Dr. Xanthopoulos served in the Greek Armed Forces and worked for a year for the Greek Forest Service before leaving in 1984 for the U.S.A. where he pursued his M.Sc. and Ph.D. degrees. Returning in Greece in 1990, he initially worked as research assistant for the Forest Research Institute of the National Agricultural Research Foundation (NAGREF) of the Ministry of Agriculture in Thessaloniki, and as assistant professor for the Forestry College in Drama, in northern Greece, in the academic year 1991-1992, teaching forestry and computer courses.

In 1992, he founded his own consulting firm “Natural Resource Technologies Consulting”. Through his firm he offered specialized consulting services and participated in many European research projects, in cooperation with the Mediterranean Agronomic Institute of Chania (MAICH), the Institute of Mediterranean Forest Ecosystems and Forest Products Technology (IMFE&FPT) of NAGREF in Athens, as well as with private enterprises such as Algosystems S.A., EPSILON International S.A., and CINAR S.A. In parallel with these activities, Dr. Xanthopoulos worked for IMFE&FPT for a year (1993-1994) and then served as advisor to the General Secretary of Forests and Natural Environment of Greece (1994-1996) on forest fire related issues, having direct involvement in operational fire management. Among his main activities in that period was participation in the yearly fire management planning for Greece, development of a computer based decision support system for water bomber dispatching, participation in the organization and training of the first airborne firefighter crews, introduction of systematic forest fire investigation training to the Greek Forest Service, a leading role in the design of forest fire prevention campaigns, and preparation of a yearly analysis the results of each fire season in a report that also included proposals for correction of existing problems and better future organization. Of special importance was the introduction, in 1996, of a daily fire danger prediction map for the first time in Greece, to be used as basis for presuppression planning for the country. He prepared this map through the 1996 and 1997 fire seasons.

In 1998 responsibility for forest firefighting was transferred to the Greek Fire Service which belonged to the Ministry of Public Order. In winter 1999 Dr. Xanthopoulos was asked to serve as advisor to the Minister of Public Order on forest fires related issues. From that position he offered planning advice and training to Fire Service officers and was also responsible for the daily preparation of the fire danger prediction map for the country for the summers of 1999, 2000 and 2001. He continued his direct involvement in this task until 2004. In parallel, from February 2001 till September 2002 he also served in a committee advising the General Secretary for Civil Protection in Greece.

In December 2001, Dr. Xanthopoulos resigned from his position at the Ministry of Public Order to accept a researcher position with the Institute of Mediterranean Forest Ecosystems & Forest Products Technology (IMFE&FPT) of the National Agricultural Research Foundation (NAGREF), in Athens. Currently, he is in charge of forest fire research at the Institute having participated in a significant number of fire related research projects while at the same time offering, upon request, support to the Greek operational organizations which are engaged in

forest fire prevention, suppression and post-fire mitigation. Since late 2011, the Institute belongs to the Hellenic Agricultural Organization "Demeter", a new public organization created from merging four organizations of the Ministry of Rural Development and Food, one of which was NAGREF. The name of the Institute was also shortened and became "Institute of Mediterranean Forest Ecosystems" (IMFE).

The research work of Dr. Xanthopoulos is substantial and is reflected in the table of research projects he has been involved with (shown below), being scientific responsible and manager for many of them, as well as in the long list of publications attached to this CV. Furthermore, Dr. Xanthopoulos participates in the post-graduate programs on Natural Disasters Management of the Department of Geography of the Harokopio University of Athens. As part of this involvement he offers lectures on forest fire management and serves as main advisor or committee member for the M.Sc. Theses and Ph.D. Dissertations of many graduate students.

At international level, from 1990 Dr. Xanthopoulos has offered his services to the European Commission numerous times, either as reviewer of scientific research proposals or by participating in policy development meetings. He has also participated in similar consultations for the Food and Agriculture Administration (FAO), has been a member of the UNECE/FAO Team of Specialists on Forest Fires, and is currently a member of the UNISDR Wildland Fire Advisory Group. He has participated in numerous international conferences, often as invited speaker.

Dr. Xanthopoulos has served as an associate editor for the "International Journal of Wildland Fire" for more than two decades and has also offered his services as a reviewer for this and many other scientific journals. He has served as member of the Board of Directors of the International Association of Wildland Fire for two 6-year terms, and is also a member of the Geotechnical Chamber of Greece, and the Hellenic Forestry Association.

The research interests of Dr. Xanthopoulos include forest fire policy, fire prevention, forest fuel management, fire behaviour modelling, fire danger rating, forest firefighting and firefighter safety, and modern technologies application in forest fire management. He strongly promotes the concept of Integrated Forest Fire Management. His long track record in forest fire research in combination with his involvement with operational fire management have allowed him to build an in-depth understanding and balanced views on fire management policy issues. His emphasis is on work that can directly benefit the operational world of forest fire management, with which he maintains good links.

### **PARTICIPATION IN RESEARCH PROJECTS**

<b>YEAR</b>	<b>PROJECT</b>
2022-2025	ResAlliance - Landscape resilience knowledge alliance for agriculture and forestry in the Mediterranean basin - European Commission, Horizon Europe programme, Grant Agreement 101086600 - ResAlliance - HORIZON-CL6-2022-GOVERNANCE-01-12
2021-2023	Pilot application of prescribed fire to manage fuel and reduce the intensity of forest fires on Chios island (Funding WWF GREECE through private sponsorship by Procter and Gamble S.A.)

2020-2023	Facing FIRE - Service-learning to improve training and employability in wildfire management in Southern Europe – European Commission, ERASMUS+, Cooperation for innovation and the exchange of good practices, Type of Action: Strategic Partnerships for higher education (KA203)
2019-2021	PREVAIL - PREvention Action Increases Large fire response preparedness- European Commission, Grant 826400 - PREVAIL - UCPM-2018-PP-AG
2018-2022	COST Action - “Fire in the Earth System: Science & Society” (FIRELINKS) – (COST Action CA18135 supported by the EU RTD Framework Programme)
2019-2021	Innovative action for the prevention of forest fires in Kythira through mobilization and cooperation of the population, as pilot in 3 settlements. Funding through the “Green Fund” of the Hellenic Ministry of Environment and Energy.
2018-2022	XENIOS - Combined platform of applications for the protection and promotion of cultural and tourist sites – Hellenic Republic Ministry of Economy & Development, and European Union, European Structural and Development Funds – Programme: ESPA 2014-2020 (Research-Create-Innovate), Project code: Τ1ΕΔΚ-02219, Action Code OPS- ESPA (MIS): 5031806
2014-2017	MedWildFireLab “Understanding global change drivers, impacts & indicators on forest ecosystems: a Mediterranean-scale approach (Global Change)” – ERANet FORESTERRA (“Enhancing FOrest RESearch in the MediTERRAnean through improved coordination and integration”).
2011-2024	“Investigation of the relation between the water potential of forest plants and forest fires” - Hellenic Agriculture Organization “DEMETER”
2011-2018	“Forest fire damage cost estimation” – Hellenic Agriculture Organization “DEMETER”
2012-2015	“Methodology for calculating forest land value in Greece” - (Special Secretariat of Forests, General Direction for Development and Protection of Forests and Natural Environment, funding through the “Green Fund” of the Ministry of Environment, Energy and Climate Change)
2012-2014	“Contribution to forest fire prevention in 2012-2013 with the INCA methodology” – (Special Secretariat of Forests, General Direction for Development and Protection of Forests and Natural Environment, funding through the “Green Fund” of the Ministry of Environment, Energy and Climate Change)
2009-2010	INCA – “Linking civil protection and planning by agreement on objectives” – (European Commission, DG Environment, Grant Agreement reference n° 070401/2008/507855/SUB/A3)
2009-2010	MASIFF – “Development of a methodology for the analysis of socioeconomic impact of forest fires and economic efficiency of fire management” – (Joint Research Centre (JRC) of the European Commission - Contract Notice No. 2008/S 116-154000 of 17/06/2008)
2008-2012	COST Action – “Post-Fire Forest Management in Southern Europe” – (COST Action FP0701 supported by the EU RTD Framework Programme)
2006-2009	SCIER – “Sensor & Computing Infrastructure for Environmental Risks” – (European Commission, Proposal/Contract No.: IST-5-035164)

2006-2008	“Forest fuels standardization and management methodology in Attica” - (Greek Ministry of Development, General Secretariat for Research and Technology, Project code: ATT-63)
2005-2010	DESURVEY – “A Surveillance System for Assessing and Monitoring Desertification” - (European Commission, 6th Framework Programme: Global Change & Ecosystems. Integrated Project Contract No. 003950)
2002-2006	EUFIRELAB - Euro-Mediterranean Wildland Fire Laboratory, a “wall-less” Laboratory for Wildland Fire Sciences and Technologies in the Euro-Mediterranean Region. – (EVR1-CT-2002-40028)
2002-2004	FIREGUARD - “Monitoring Forests at the Management Unit Level for Fire Prevention and Control” – (QLK5-CT-2001-00784)
2002-2004	ERAS - Extension Retardant Application System – (EVG1-CT-2001-00039)
2002-2004	AUTOHAZARD PRO – Automated fire and flood hazard protection system – (EVG1-CT-2001-00057)
2001-2003	WARM - Wildland-Urban Area Fire Risk Management – (EVG1-CT-2001-00044)
2001-2002	E-FIS - “Electronic On-line Decision Support System for Forest Fires” - Ten-Telecom Programme, (Contract No.C26789)
1998-2001	SALTUS - “Spot fires: Mechanisms analysis & modelling” - (ENV4-CT98-0701)
1998-2000	ACRE - “Additifs Chimiques Rheologie Evaluation” - (ENV4-CT98-0729)
1998-2000	“PROMETHEUS: System validation - management techniques for optimisation of suppression and minimisation of wildfire effects” - (ENV-CT97-0716)
1997-1998	FOMFIS – “FOrest Fire Management and FIre Prevention System” - (ENV4-CT96-0335)
1996-1998	“Management of standing burned timber after a wildfire” – (PENED ‘95 programme, Greek Ministry of Development, General Secretariat for Research and Technology).
1994-1996	PROMETHEUS – “Management techniques for optimization of suppression and minimization of wildfire effects” - (EV5V-CT94-0482)
1992-1994	"Modelling of Forest Fires" - (EV5V-CT91-0015)
1992-1994	"Greek Forest Fires" – NATO and Ministry of Agriculture funded project to the Aristotelian University of Thessaloniki
1991-1992	Forest fire decision support system - Project EPOCH-040 – EPOCH programme
